Dear Friends and Family,

I hope that you have continued to remain healthy and safe over this past week. Our community is continuing to take a proactive approach with all precautionary measures to maintain the safety of your loved ones. I would like to take this opportunity to provide you with some current updates in this ever changing landscape.

This week, Governor Chris Sununu has given an update on new interventions being implemented to assist long term care centers like ours. The key impacts for Warde include availability for COVID-19 staff testing and a \$300 check per week in addition to our staff's base paychecks. The testing should help to better ensure that we are not exposing any of our residents to COVID-19 and the additional pay should help to retain and acknowledge our dedicated staff during this difficult time.

As noted in my last letter to you, A few suggestions to reach out to your loved ones during this time may include: letters, phone calls, and video chatting. If you would like to video chat, please reach out to our receptionist to schedule a time that works best for you. We have tablets available and our staff would be happy to connect you with your loved ones.

We want to continue to keep all lines of communication with our families open and welcome any questions you may have. Please do not hesitate to reach out to our Director of Nurses or myself. Please keep us in your prayers.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bret Pomeroy", is written over a large, light blue oval shape.
