May 01, 2020

Dear Friends and Family,

I hope that you and your families are staying safe and healthy. We continue to stay well here at Warde taking it one day at a time. Below, please find some updates from this past week at Warde.

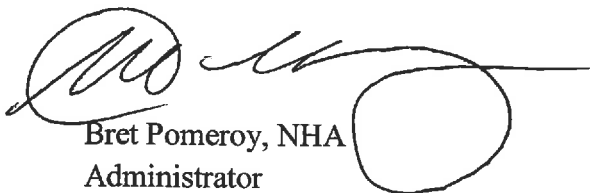

This week, the state has provided all of our staff with drive- thru COVID-19 testing facilitated by Convenient MD. This should help us to further protect your loved ones and our staff members in keeping us all healthy. We hope to have results of these tests by early next week.

Another level of support our state has offered to our staff is a stipend for their continued efforts in taking care of our residents and your family members. I think that it is important to note how truly blessed we are to have such a dedicated and compassionate staff. They keep coming in day after day in spite of the risks we all face to offer an uncompromised level of care.

On a positive note, many of our residents have been enjoying the weather as it becomes warmer outside, spending time either on walks around our campus or watching as birds and other wild life return to our campus. Specifically, to mention our resident turkey flock, which has been enjoying the front lawn and sunshine.

To reiterate from last week's letter we will keep a transparent and open line of communication with any updates of COVID-19 as it pertains to Warde. Please do not hesitate to reach out to our director of nurses or myself if you have any questions. Please keep us in your prayers.

Peace and Blessings,

Bret Pomeroy, NHA
