May 22, 2020

Dear Friends and Family,

As another week passes I hope that you and your family continue to stay healthy and safe. We at Warde continue to focus on the care and the wellbeing of your loved ones. Below I have included some new weekly updates.

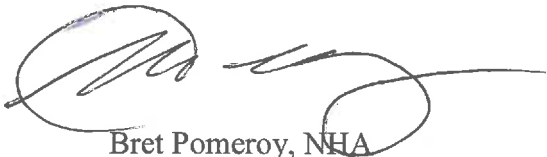

This week we have been supplied with COVID-19 testing for all residents. This testing helps us to better manage the pandemic at hand and gives us all a piece of mind of how we proceed with infection control precautions. We are also currently looking at having another round of staff wide testing as well.

As a reminder from last week's letter Warde has added a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to take a look as we update the information on this page weekly. Facility wide testing will also be reported on this site.

We know how difficult it has been to keep such a distance for your loved ones. One way you can interact is through a window visit. We have a designated area by the main entrance just for this purpose. If this is something of interest to you or other family members please call ahead to set up a time.

For more immediate updates I would ask that you provide us with an email address if you haven't already by reaching out to whc.adminassist@nh-cc.org. If we were ever to have a COVID case in house this would be one way for us to directly communicate with you. Please do not hesitate to reach out to our director of nurses or myself if you have any questions. Please keep us in your prayers.

Peace and Blessings,

Bret Pomeroy, NHA
Administrator
