June 01-2020

Dear Friends and Family,

I hope that you and your families are staying safe and healthy. We continue to adhere to comprehensive precautions to keep your loved ones safe. We at Warde are staying up to date with the latest guidance through the state. Please see the following weekly update.

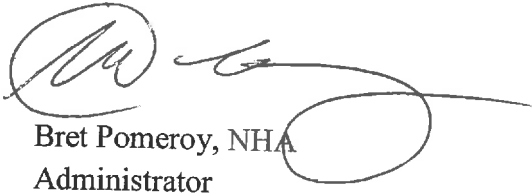

This week we have received the most recent results of our resident COVID-19 testing. All residents at the writing of this letter have tested negative. We will continue with the direction of the Department of Health to test 10% of our resident population on a regular basis. We will also be testing staff every 10 days as well.

I know many questions have been raised in regards to appointments outside the facility, as the state starts to lift restrictions in the community. At this time all long-term care facilities in the state have to adhere to a stricter protocol for the protection of all of our residents and staff. If a resident does go out for an emergent appointment, upon their return we need that resident to quarantine for 14 day.

As a reminder from last week's letter Warde has added a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to take a look as we update the information on this page weekly. Facility wide testing will also be reported on this site.

Please do not hesitate to reach out to our director of nurses or myself if you have any questions. Please keep us in your prayers.

Peace and Blessings,

Bret Pomeroy, NHA
Administrator
