August 14, 2020

Dear Friends and Family,

I hope everyone is doing well and enjoying your summer. We continue to stay safe and vigilant in these unprecedented times. This week, new updates were presented to us on relaxing some of the restrictions that were set by the Department of Health and Human Services. Below, I have included some guidance and clarifications on how Warde will be proceeding forward.

On Thursday, August 14<sup>th</sup>, an announcement was made to both the public and long term care providers that we would be moving into phase two of the Pandemic guidelines for our community. The key changes are opening up regulated indoor visits and the allowance of non-essential healthcare workers to enter the building.

Part of our success with keeping your loved ones safe during this pandemic has been taking a calculated and cautious approach. We are in the process of implementing a best practice plan to incorporate these new changes. We anticipate a start by the middle of next week.

As a reminder, Warde has added a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to review the updated information weekly. Information regarding facility wide testing will also be reported on this site.

We will be sure to keep you informed of any new updates.

Please do not hesitate to reach out to our director of nurses or myself, if you have any questions.

Please keep us in your prayers.

Peace and Blessings,

Bret Pomeroy, NHA  
Administrator
