January 28, 2021

Dear Friends and Family,

I pray you have all been staying healthy and safe. I have a few updates to share over the past week. As we come into this week we are cautiously optimistic. We have been working diligently to keep your loved ones and our staff safe.

This Wednesday the 27<sup>th</sup> Warde's residents and staff had the opportunity to receive the Pfizer COVID-19 vaccine. For many this was the second shot. This signifies a light at the end of the tunnel. Even though this is not an immediate fix it gives many of us hope for a brighter year. It is still strongly encouraging to wear your mask and take social distancing seriously.

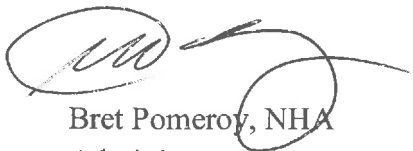

Facility wide COVID testing has also taken place this Wednesday along with the 2<sup>nd</sup> vaccine clinic. Additional testing will continue next week as the COVID rates in the community continue to be at such a substantial level. It is this level that dictates our ability to decrease or increase precautions in the facility. This includes activities such as visiting and community dining.

As a reminder, Warde has a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to review the updated information weekly. Information regarding facility wide testing will also be reported on this site.

I would like to welcome Amanda Hilker, RN to Warde as our interim Director of Nurses for the Nursing Home. Amanda comes to us from the greater Catholic Charities New Hampshire organization with great familiarity to Warde and our processes.

Please do not hesitate to reach out to our director of nurses or myself, if you have any questions. Please keep us in your prayers. Wishing you all a blessed and peaceful New Year.

Peace,

Bret Pomeroy, NHA
