February 5, 2021

Dear Friends and Family,

I hope you all have been staying healthy and safe. I have a few updates to share over the past week. We have been working diligently to keep your loved ones and staff safe.

Facility wide COVID testing has also taken place this past Wednesday and we are still currently waiting for the most current results. As of this writing we have no active staff or resident COVID cases. Next week we will resume twice weekly COVID testing as rates in the community continue to be at such a substantial level. It is this level that dictates our ability to decrease or increase precautions in the facility. This includes activities such as visiting and community dining.

As we look forward to the future over the next week we will be starting to hold socially distanced group dining and activities. Our hope is that in the near future as community transmission continues to decrease we will be able to hold socially distanced one on one visits. For this to occur community transmission needs to be below 10% and we currently sit at around 14% in Rockingham county. This is an improvement from the almost 20% just a month ago.

As a reminder, Warde has a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to review the updated information weekly. Information regarding facility wide testing will also be reported on this site.

Please do not hesitate to reach out to our director of nurses or myself, if you have any questions. Please keep us in your prayers. Wishing you all a blessed and peaceful New Year.

Peace,

Bret Pomeroy, NHA
