April 16, 2021

Dear friends and family,

I hope all has been well over the past week. We have been taking the warmer weather in stride. I may have spoken too soon after all the snow we had this morning. I have a few updates I would like to share.

From our last weeks update of a COVID positive staff member I am happy to give the news we have had no further incidence. I also want to clarify that this was a vaccinated staff member well past the 2 weeks of the second shot. The vaccine has meant many positive changes for our residents, but we still need to be vigilant.

As the weather continues to get warmer we will be working on setting up outside visitation. This will help to increase the availability of time slots that can be reserved for a visit. This will coincide with the inside visitation. We will start scheduling these weather permitting next Monday.

As a reminder, Warde has a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to review the updated information weekly. Information regarding facility wide testing will also be reported on this site.

If you are interested in a in person visit please reach out to reception for further instruction and to reserve a time slot. Please do not hesitate to reach out to our director of nurses or myself, if you have any questions.

Peace,

Bret Pomeroy
Administrator
