April 30, 2021

Dear friends and family,

I pray you have all been staying well. We continue to stay safe and optimistic as spring is upon us. I have a few updates to share from the past week.

CMS has updated guidance on lessening of restrictions for vaccinated staff, residents, and visitors. We are in the midst of digesting all of this new information and developing procedures around these changes. Some of the key points are if a resident and visitor are both vaccinated they can remove masks and touch. Some other areas of potential impact for vaccinated residents will be group activities and dining. We will have more updates over the next week.

I would also like to emphasize visitation procedure and hope to be as accommodating as possible. Our main request is that we are able to schedule and pre-screen the visitation. The reason being is we need to be cognizant of the number of visitors in the building at one time. If you ever experience concerns with your ability to visit please do not hesitate to reach out to myself.

As a reminder, Warde has a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to review the updated information weekly. Information regarding facility wide testing will also be reported on this site.

Please do not hesitate to reach out to our director of nurses or myself, if you have any questions.

Peace,

Bret Pomeroy
