October 8, 2021

Dear friends and family,

I hope you are all having a great start to fall and are staying safe. We continue to follow current precautions and stay vigilant to any changes that may occur due to the new delta variant. I have just a few updates from over the past week.

Over the past week we have done a PCR test on many of our staff and residents that work and live on the Assisted Living. We are anticipating the results the start of next week. These results will determine how long our increased precautions on the Assisted Living will last. We will be sure to update you of any changes to these precautions.

As a reminder, Warde has a COVID-19 update page with key information specific to our community at <https://wardehealthcenter.org/covid-19-update/>. I would encourage you to review the updated information weekly. Information regarding facility wide testing will also be reported on this site.

I also wanted to put out to our families that many times some of our best employees come through word of mouth and recommendation of people like you. If you know of any one looking to get into the healthcare field or has a passion for working with the elderly please keep us in mind. We have many opportunities for continuing education and career growth. Please do not hesitate to reach out to myself or Deb Racca in H.R. at whc.hrmgr@nh-cc.org .

If you have any other questions or concerns please reach out to our director of nurses or myself.

Peace,

Bret Pomeroy
Administrator
